

Simpson College TB Testing Form for International Students

Student: _____ Year of Entry: _____ Cell Phone: _____

International Students: International Students are required to complete the International Student TB SCREENING Form. The screening form is available at <https://www.simpson.edu/life-at-simpson/health-wellness-safety/health-wellness-safety/>.

If the answer to any of the screening questions is yes, Simpson College requires that a healthcare provider complete a tuberculosis risk assessment (to be completed within six months before beginning studies at Simpson). The completed screening form and results of the assessment/testing will be required as part of the students' health information, due **by August 1 if starting in the Fall and December 1 if starting in the Spring**.

Students who do not submit documentation of their TB status before their arrival on campus will be required to complete the TB screening questionnaire. If indicated, the student must obtain a TB assessment at Warren County Public Health at the student's expense (\$25.00) during orientation.

Upon completion of testing, please return this form to:

Health Services
